

Equality and Human Rights Screening Template

The Safeguarding Board for Northern Ireland (SBNI) is required to address the 4 questions below in relation to all its policies. This template sets out a proforma to document consideration of each question.

What is the likely impact on equality of opportunity for those affected by this policy, for each of the Section 75 equality categories? (minor/major/none)

Are there opportunities to better promote equality of opportunity for people within the Section 75 equality categories?

To what extent is the policy likely to impact on good relations between people of a different religious belief, political opinion or racial group? (minor/major/none)

Are there opportunities to better promote good relations between people of a different religious belief, political opinion or racial group?

As part of the audit trail documentation needs to be made available for all policies and decisions examined for equality and human rights implications. The screening template is a pro forma to document consideration of each screening question.

For information (evidence, data, research etc.) on the Section 75 equality groups see the Equality Portal - [Screening Resources & Evidence](#).

(1) INFORMATION ABOUT THE POLICY OR DECISION

1.1 Title of policy or decision

**The Safeguarding Board for Northern Ireland Policy and Procedure
Committee Child Protection Case Conference Appeals Process (revision)**

1.2 Description of policy or decision

The Safeguarding Board for Northern Ireland (SBNI) was set up under the Safeguarding Board Act (NI) 2011 and is the statutory body responsible for coordinating and ensuring the effectiveness of its 21 member bodies and its six independent persons for the purposes of safeguarding and promoting the welfare of children and young people. It is the key strategic leadership and management organisation for safeguarding and promoting the welfare of children and young people in Northern Ireland.

The SBNI is a partnership organisation consisting of all of the key statutory bodies, the major voluntary agencies and appointed independent persons that control, manage, operate and resource the safeguarding and child protection systems in Northern Ireland.

The SBNI Independent Chair (independent person), senior representatives from the 21 member bodies and the five other independent persons are members of the Board of the SBNI. The independent persons are the SBNI Independent Chair, the Case Management Review Panel Chair, two Safeguarding Panel Chairs and two Independent Lay Persons.

Additionally, other partner organisations involved in safeguarding and child protection in Northern Ireland are represented on the various statutory and non-statutory committees that support the Board in its work.

The Board and its statutory and non-statutory committees are supported in its aims and priorities by a small SBNI Central Support Team (currently seven staff). For more details on the SBNI see: www.safeguardingni.org.

The SBNI is an unincorporated statutory body and is corporately hosted and relies on the Public Health Agency (PHA) for key corporate accountability, business and governance arrangements.

The primary responsibility of the SBNI is to protect children and young people from risk and harm and ensure that effective work to protect children and young people is properly coordinated. The fundamental corporate strategic value associated with this intention is that the SBNI will listen to children and young people, their views,

feelings and experiences and place them and these at the heart of what the SBNI does.

The SBNI Policy and Procedure Committee is a statutory committee of the SBNI. Its remit is to enhance the safety and welfare of children and young people by developing and revising child protection and safeguarding policies and procedures to be followed by all safeguarding and child protection professionals. These relate to:

- The action to be taken where there are concerns about a child's safety or welfare, including thresholds for intervention
- Training of persons who work with children or in services directly affecting the safety of children
- Recruitment and supervision of persons who work with children
- Investigations of allegations concerning persons who work with children.

These are applicable to all safeguarding and child protection bodies.

The committee also produces procedural guidance on the sharing of information between organisations working with children and families.

The initial policy was written in 2017 and was intended to enable parents, carers or guardians of a child whose name has been placed on the child protection register to appeal the decision.

This revision of this policy is to provide an additional independent level of oversight and decision-making in respect of the management of this appeals process around the process for appealing the initial decision.

2.2 Quantitative Data

Who is affected by the policy or decision? Please provide a statistical profile. Note if policy affects both staff and service users, please provide profile for both.

Category	<i>What is the makeup of the affected group? (%) Are there any issues or problems? For example, a lower uptake that needs to be addressed or greater involvement of a particular group?</i>
Gender	General population: 1,903,175 – people in Northern Ireland 967,043 (50.8%) – female 936,132 (49.2%) – male SBNI Statistics: 2,298 – Children on the Child protection Register • 1220 Males • 1087 Females 3,281 Children in Care of HSC Trusts (LAC) • 53% Male • 47% Female Population Statistics: There is a higher level of disability among adult females (23%) compared to adult males (19%). Girls (4%) are less likely to be disabled than boys (8%). • Male prevalence rates are only higher than female rates amongst the youngest adults (16 to 25): 6% of males compared with 4% of females; • 8% of boys aged 15 and under were found to have a disability, compared with 4% of girls of the same age. Transgender Research suggests for the Northern Ireland population as a whole: • 140-160 individuals are affiliated with transgender groups • 120 individuals have presented with Gender Identity Dysphoria • There are more trans women than trans men living in Northern Ireland. .(McBride, Ruari Santiago (2011): Healthcare Issues for Transgender People Living in Northern Ireland. Institute for Conflict Research.) The Gender Identity Research and Education Society (GIREs) estimate the number of gender nonconforming employees and service users, based on the information that 7 GIREs assembled for the Home Office (2011) and subsequently updated (2014): • gender nonconforming to some degree (1%) • likely to seek medical treatment for their condition at some stage (0.2%) • receiving such treatment already (0.03%) • having already undergone transition (0.02%) • having a GRC (0.005%) • likely to begin treatment during the year (0.004%).

	The numbers who have sought treatment seems likely to continue growing at 20% per annum or even faster. Few younger people present for treatment despite the fact that most gender variant adults report experiencing the condition from a very early age. Yet, presentation for treatment among youngsters is growing even more rapidly (50% p.a.). Organisations should assume that there may be nearly equal numbers of people transitioning from male to female (trans women) and from female to male (trans men). Applying GIRES figures to NI population n=1,810,900 (Census 2011): • 18109 people who do not identify with gender assigned to them at birth • 3622 likely to seek treatment • 362 have undergone transition • 91 have a Gender Recognition Certificate

Figures from 2011 Census of people who are limited a lot by their disability are as follows within the following categories; Male 0-15 – 3% 16-44 – 5% 45 – 64 – 16% 65 and over – 33% Female 0 – 15 – 2% 16 – 44 – 5% 45 – 64 – 17% 65 and over – 38% Overall there are greater proportions of older people with a disability. Carers NI (State of Caring 2022 report) There are over 290,000 people providing some form of unpaid care for a sick or disabled family member or friend in Northern Ireland – around 1 in 5 adults. (Carers UK (2022). Carers Week research report 2022.) Of those participating in the survey... • 82% identified as female and 17% identified as male. • 4% are aged 25-34, 17% are aged 35-44, 33% are aged 45-54, 31% are aged 55-64 and 14% are aged 65+. • 24% have a disability. • 98% described their ethnicity as white.

	• 28% have childcare responsibilities for a non-disabled child under the age of 18 alongside their caring role. • 56% are in some form of employment and 18% are retired from work. • 31% have been caring for 15 year or more, 16% for between 10-14 years, 25% for 5-9 years, 25% for 1-4 years, and 3% for less than a year. • 46% provide 90 hours or more of care per week, 13% care for 50-89 hours, 23% care for 20-49 hours, and 19% care for 1-19 hours per week. • 67% care for one person, 25% care for two people, 5% care for three people and 3% care for four or more people. It may be concluded that a considerable share of people with a disability are carers themselves.

There are more than 17,500 pupils in schools in Northern Ireland recorded as “non-white”, and this represents 5.0% of the school population. A newcomer pupil is one who has enrolled in a school but who does not have the satisfactory language skills to participate fully in the school curriculum. In 2019/20, there were nearly 17,400 newcomer pupils accounting for 5.0% of the school population. This has risen by nearly 5,500 pupils from five years prior. The growth in diversity in the school system may be explained by increased levels of migration among school age children over the last number of years. The top languages spoken by newcomers are: Polish, Lithuanian and Portuguese

Sexual Orientation	[Please note: Census 2021 data relating to sexual orientation has not yet been released (as of the date of this screening)] There are no accurate statistics on sexual orientation in the population as a whole, it is however estimated that between 5% and 10% of the population would identify as lesbian, gay or bisexual. Between 2005 and 2017, there were 1202 recorded Civil Partnerships regionally. However, this is not indicative of the LGB population A report published by the Rainbow Project (O'Hara, 2013), based on research conducted with more than 500 individuals reported common experiences of invisibility, homophobia/transphobia, and a range of violence from threats to physical violence, whether direct or indirect. As a result of their actual or perceived sexual orientation and/or gender identity: - 65.8% had been verbally assaulted at least once; - 43.3% had been threatened with physical violence at least once; - 33% had been threatened to be 'outed' at least once; - 34.7% had experienced discrimination in accessing goods, facilities or services at least once. ONS Sexual Orientation 2019 (released May 2021) • An estimated 2.7% of the UK population aged 16 years and over identified as lesbian, gay or bisexual (LGB) in 2019, an increase from 2.2% in 2018. • Younger people (aged 16 to 24 years) were most likely to identify as LGB in 2019 (6.6% of all 16 to 24 year olds, an increase from 4.4% in 2018); older people (aged 65 years and over) also showed an increase in those identifying as LGB, from 0.7% to 1.0% of this age category.
