Dear Colleague

### **EXPRESSION OF INTEREST TO ALL REGISTERED HEALTH CARE PROFESSIONALS TO BECOME SESSIONAL VACCINATORS TO HELP IMPLEMENT THE FORTHCOMING COVID-19 VACCINATION PROGRAMME**

#### **ACTION REQUIRED**

**Chief Executives must ensure that this information is drawn to the attention of all staff.**

#### **Introduction**

1. The purpose of this letter is to strongly support the expression of Interest to all Health Care Professionals (eg pharmacy, nursing, dentist and allied health professionals) to become sessional vaccinators to help implement the forthcoming COVID-19 vaccination programme. We would also ask managers to ensure that, where necessary, these individuals can be released from their normal duties when required.
2. You will have seen the news recently which indicated that one of the COVID-19 vaccines, which is due to be used in a forthcoming vaccination programme, was shown to be 90% effective with no safety concerns. While this is very welcome news it should be noted that the vaccine still has to be considered and approved by the MHRA. Another potential vaccine is also going through the same process and its safety and efficacy data is expected to be submitted to MHRA within the next few weeks.
3. It is therefore very possible that a COVID-19 vaccine(s) will become available for use across the UK by early December. Plans

have been drawn up to ensure a vaccination programme can be implemented quickly once sufficient supplies of the vaccine(s) have been received into Northern Ireland.

4. The vaccination programme will involve a mixture of delivery models and these will include: Mobile teams for care home residents and staff as well as support for district nursing for house bound patients; Enhanced Trust Occupational Health staff teams for the mass vaccination of staff; and a GP based programme which will see GPs operating in cluster formation vaccination sites with additional support.
5. In order to be able to implement these plans it is essential that we have adequate vaccinators who can be trained up and called upon when required as well as health care assistants and admin staff to support the programme. Those already trained as Peer Flu Vaccinators will only require an additional module. We would therefore strongly urge all staff to seriously consider this request and for their managers to try to accommodate all requests from staff to be released as necessary.

Yours sincerely

**Michael McBride**  
Chief Medical Officer

**Charlotte McArdle**  
Chief Nursing Officer

## **CIRCULATION LIST**

Director of Public Health/Medical Director, Public Health Agency (*for onward distribution to all relevant health protection staff*)
