Medicine Supply Notification: Phenobarbital 15mg/5ml elixir

Tier 2 – medium impact

Date of issue: 20/05/2025

[Medicines Supply Tool – SPS - Specialist Pharmacy Service – The first stop for professional medicines advice](#)

Summary

- Phenobarbital 15mg/5ml elixir (500ml) is out of stock until late June 2025.
- Specials of phenobarbital 15mg/5ml oral solution and phenobarbital 15mg/5ml **oral suspension** remain available (see Supporting information)

Actions Required

Prescribers should not initiate patients on phenobarbital 15mg/5ml elixir until the supply issues have resolved.

Where patients have insufficient supplies to last until the re-supply date, clinicians should:

- review patients and consider prescribing Specials of phenobarbital 15mg/5ml oral solution or oral suspension, checking the list of excipients and pharmaceutical differences to ensure suitability for patient (see Supporting information); and
- advise patients that they are receiving the same drug therapy but from a different manufacturer to avoid a break in treatment, and to report signs indicating a potential loss of seizure control and/or new/worsening side effects.

Supporting information

Clinical Information

Phenobarbital 15mg/5ml elixir is licensed for the treatment of all forms of epilepsy except absence seizures. It is a category 1 antiepileptic drug where patients should be maintained on a specific product as clinically relevant differences between different manufacturers' products might occur, even when the pharmaceutical forms are the same and bioequivalence has been shown. However, in the event of a shortage, maintaining treatment with another manufacturer's product is necessary to avoid treatment interruption and potential loss of seizure control.

SyriMed	Oral suspension	Next day delivery	<ul style="list-style-type: none"> • 100ml • 500ml 	90 days	Contact number: 0808 178 1914 https://www.bnsgroup.co.uk/login Email Order - specials@thamelabs.co.uk

The full list of excipients should be requested from each supplier and reviewed for appropriateness as these can vary.

Any decision to prescribe an unlicensed medicine must consider the relevant guidance and NHS Trust or local governance procedures. Unlicensed imports do not undergo any central quality assessment or suitability evaluation. Therefore, any import must be locally assessed in line with local unlicensed medicines processes.

Please see the links below for further information:

- [The supply of unlicensed medicinal products](#), Medicines and Healthcare products Regulatory Agency (MHRA)
- [Professional Guidance for the Procurement and Supply of Specials](#), Royal Pharmaceutical Society
- [Prescribing unlicensed medicines](#), General Medical Council (GMC),

When prescribing a product that is not licensed in the UK due to a supply issue with the licensed alternative prescribers must indicate on the HS21 prescription that an unlicensed product is required, with the following wording: “**special order**”.
