Part IX (a)

List of Preparations Approved by the Department that may be prescribed On Form HS21D by Dentists

AS Saliva Orthana Spray (a medical device listed in Part III)

Aciclovir Cream BP

Aciclovir Oral Suspension BP 200mg/5ml

Aciclovir Tablets BP 200mg, 800mg

Amoxicillin Capsules BP

Amoxicillin Oral Powder DPF

Amoxicillin Oral Suspension BP (includes sugar-free formulation)

Artificial Saliva Gel DPF

Artificial Saliva Oral Spray DPF

Artificial Saliva Pastilles DPF

Artificial Saliva Protective Spray DPF

Artificial Saliva Substitutes as listed below (to be prescribed only for indications approved by ACBS)

AS Saliva Orthana Lozenges

Bioxtra

Glandosane

Saliveze

Aspirin Tablets Dispersible BP

Azithromycin Capsules 250mg DPF

Azithromycin Oral Suspension 200mg/5ml DPF

Azithromycin Tablets 250mg, 500mg DPF

Beclometasone Pressurised Inhalation BP 50micrograms/metered inhalation CFC-free as: Clenil Modulite

Benzydamine Mouthwash BP 0.15%

Benzydamine Oromucosal Spray BP 0.15%

Betamethasone Soluble Tablets 500microgram DPF

Carbamazepine Tablets BP

Cefalexin Capsules BP

Cefalexin Oral Suspension BP

Cefalexin Tablets BP

Cefradine Capsules BP

Cetirizine Oral Solution 5mg/5ml BP

Cetirizine Tablets 10mg BP

Chlorhexidine Gluconate Gel BP

Chlorhexidine Mouthwash BP 0.2% w/v

Chlorhexidine Oral Spray DPF

Chlorphenamine Oral Solution BP (includes sugar-free formulation)

Chlorphenamine Tablets BP

Choline Salicylate Dental Gel BP

Clarithromycin Oral Suspension 125mg/5ml DPF

Clarithromycin Oral Suspension 250mg/5ml DPF

Clarithromycin Tablets BP

Clindamycin Capsules BP

Co-amoxiclav Oral Suspension BP 125/31 (amoxicillin 125mg as trihydrate, clavulanic acid 31.25mg as potassium salt)/5ml (includes sugar-free formulation)

Co-amoxiclav Oral Suspension BP 250/62 (amoxicillin 250mg as trihydrate, clavulanic acid 62.5mg as potassium salt)/5ml (includes sugar-free formulation)

Co-amoxiclav Tablets BP 250/125 (amoxicillin 250mg as trihydrate, clavulanic acid 125mg as potassium salt)

These products have Advisory Committee on Borderline Substances approval for patients suffering dry mouth as a result of having (or having undergone) radiotherapy or sicca syndrome.

Diazepam Oral Solution BP 2mg/5ml

Diazepam Tablets BP

Diclofenac Sodium Tablets Gastro-resistant BP

Dihydrocodeine Tablets BP 30mg

Doxycycline Capsules BP 100mg

Doxycycline Tablets 20mg DPF

Doxycycline Tablets Dispersible BP

Ephedrine Nasal Drops BP

Erythromycin Ethyl Succinate Oral Suspension BP (includes sugar-free formulation)

Erythromycin Ethyl Succinate Tablets BP

Erythromycin Stearate Tablets BP

Erythromycin Tablets Gastro-resistant BP

Fluconazole Capsules 50mg DPF

Fluconazole Oral Suspension 50mg/5ml DPF

Hydrocortisone Cream BP 1%

Hydrocortisone Oromucosal Tablets BP

Hydrocortisone and Miconazole Cream BP

Hydrocortisone and Miconazole Ointment BP

Hydrogen Peroxide Mouthwash BP 6%

Ibuprofen Oral Suspension BP sugar free

Ibuprofen Tablets BP

Lansoprazole Gastro-Resistant Capsules BP

Lidocaine Ointment BP 5%

Lidocaine Spray 10% DPF

Loratadine Syrup 5mg/5ml DPF

Loratadine Tablets BP 10mg

Menthol and Eucalyptus Inhalation BP 1980

Metronidazole Oral Suspension BP

Metronidazole Tablets BP

Miconazole Cream BP

Miconazole Oromucosal Gel BP 24mg/ml

Mouth-wash Solution - tablets DPF

Nystatin Oral Suspension BP (includes sugar-free formulation)

Omeprazole Gastro-resistant Capsules BP

Oxytetracycline Tablets BP

*Paracetamol Oral Suspension BP (includes sugar-free formulation)

Paracetamol Tablets BP

Paracetamol Tablets Soluble BP

Penciclovir Cream DPF

Phenoxymethylpenicillin Oral Solution BP (includes sugar-free formulation)

Phenoxymethylpenicillin Tablets BP

Promethazine Hydrochloride Tablets BP

Promethazine Oral Solution BP

^{*} The title covers strengths of 120mg/5ml and 250mg/5ml, it is therefore necessary to specify the strength required.

Sodium Chloride Mouthwash Compound BP
Sodium Fluoride Mouthwash BP
Sodium Fluoride Oral Drops BP
Sodium Fluoride Tablets BP
Sodium Fluoride Toothpaste 0.619% DPF, 1.1% DPF
Sodium Fusidate Ointment BP
SST Saliva Stimulating Tablets (a medical device listed in Part IXA)

Temazepam Oral Solution BP Temazepam Tablets BP Tetracycline Tablets BP

Part IX (b)

List Of Preparations Approved By The Department Which May Be Prescribed On Form HS 21(N) By Nurses for Health Service Patients

District Nurse and Health Visitor prescribers who have completed the necessary training may only prescribe items appearing in the nurse prescribers list set below.

- ¹ Only in quantities up to 100

Water for Injection

Zinc and Castor Oil Ointment BP

Zinc Oxide and Dimeticone Spray NPF

Zinc Oxide Impregnated Medicated Bandage NPF

Zinc Oxide Impregnated Medicated Stocking NPF

Zinc Paste bandage, BP 1993

Zinc Paste and Ichthammol Bandage BP 1993

Appliances and Reagents (Including the Wound Management Products)

All Appliances and Reagents included in this list must comply with the description, specifications packs and quantities as specified in the relevant entry in Part II of the Drug Tariff

Appliances as listed in Part III (including Contraceptive Devices)

Incontinence Appliances as listed in Part IXB of England & Wales Drug Tariff

Stoma Appliances and Associated Products as listed in Part IXC of England & Wales Drug Tariff

Chemical Reagents as listed in Part II of the Drug Tariff

PART IX (c)

Non-Medical Independent Prescribing (Nurse, Pharmacist, Optometrist, Physiotherapist & Chiropodist/Podiatrist)

Nurse Independent Prescribers and Pharmacist Independent Prescribers are able to prescribe any medicine for any medical condition within their competence. This includes any controlled drug listed in Schedule 2-5, except diamorphine, cocaine and dipipanone as regards persons addicted to certain controlled drugs otherwise than for the purpose of treating organic disease or injury by such persons (Nurse and Pharmacist Independent Prescribers are able to prescribe other controlled drugs for the treatment of addiction).

Nurse Independent Prescribers may mix a controlled drug with another medicine and may supply and/or administer morphine under a Patient Group Direction for the immediate and necessary treatment of sick or injured persons.

Optometrist Independent Prescribers can prescribe any licensed medicine for ocular conditions affecting the eye and surrounding tissue, but cannot prescribe any controlled drug independently.

Physiotherapist Independent Prescribers can prescribe any licensed medicine for any condition within their competence within the overarching framework of human movement, performance and function. With effect from 15 November 2019, this includes the following controlled drugs, provided the drug is administered by the specified method: Diazepam (oral), Dihydrocodeine (oral), Fentanyl (transdermal), Lorazepam (oral), Morphine (oral or by injection), Oxycodone (oral), and Temazepam (oral).

Podiatrist Independent Prescribers can prescribe any licensed medicine within their competence and relevant to the treatment of disorders affecting the foot, ankle and associated structures. With effect from 15 November 2019, this includes the following controlled drugs, provided the drug is administered by the specified method: Diazepam (oral), Dihydrocodeine (oral), Lorazepam (oral), and Temazepam (oral).

Nurse, Pharmacist Optometrist, Physiotherapist & Chiropodist/Podiatrist Independent Prescribers:

- must work within their own level of professional competence and expertise;
- are recommended to prescribe generically, except where this would not be clinically appropriate or where there is no approved generic name;
- can prescribe licensed medicines independently for uses outside their licensed indications (so-called 'off-licence' or 'off-label'). They must accept clinical/legal responsibility for that prescribing, and should only prescribe off-licence/off-label where it is accepted clinical practice. In general, the General Optical Council discourages optometrists from prescribing 'off-license' or 'off-label'. Further guidance is provided in the College of Optometrists Clinical Management Guidelines;
- may prescribe any appliances/dressings that are listed in Part II & III of the Drug Tariff.
 Optometrist, Physiotherapist and Chiropodist/Podiatrist Independent Prescribers can only
 prescribe appliances/dressings for the treatment of conditions relevant to their respective
 areas of professional practice;
- Must <u>not</u> prescribe drugs and other substances listed in Part XI (a) of the Drug Tariff at Health Service expense:
- May prescribe drugs listed in Part XI (b) of the Drug Tariff at Health Service expense, but only
 in the specified circumstances, for the specified patient groups listed in the Drug Tariff and
 where this is within their scope of professional practice;

- Nurse and Pharmacist Independent Prescribers can prescribe unlicensed medicines for their patients, on the same basis as doctors and supplementary prescribers. Optometrist, Physiotherapist and Chiropodist/Podiatrist Independent Prescribers cannot prescribe unlicensed medicines:
- Nurse Independent Prescribers and Pharmacist Independent Prescribers may mix medicines
 for the needs of a particular patient and to direct others to mix. Nurse Independent Prescribers
 and Pharmacist Independent Prescribers may provide written directions for others to do so for
 the purpose of administering them to meet the needs of a particular patient.
- May prescribe borderline substances, which have been approved by the Advisory Committee on Borderline Substances (ACBS). A list of ACBS approved products and the circumstances under which they can be prescribed, can be found in Part X of the Drug Tariff. Although this is a non-mandatory list, Nurse Independent Prescribers should <u>normally</u> restrict their prescribing of Borderline Substances to items on the ACBS approved list. Optometrist, Physiotherapist and Chiropodist/Podiatrist Independent Prescribers should <u>not</u> need to prescribe any items on the ACBS list.
