

## MPS 3421

### **FreeStyle® Libre 2 sensor prescriptions: Deletion from the Northern Ireland Drug Tariff from 1st October 2025**

BSO would like to remind contractors that FreeStyle® Libre 2 sensors have been discontinued in August 2025 and will be deleted from Part III of the October 2025 Northern Ireland Drug Tariff.

HS21 prescriptions for FreeStyle® Libre 2 sensors dispensed from 1<sup>st</sup> October 2025 will **not be paid** by BSO, and will be returned to contractors.

Patients currently using the FreeStyle® Libre 2 sensor should be advised to contact their prescriber to request a new prescription for the alternative FreeStyle® libre 2 Plus sensor. The FreeStyle® Libre 2 Plus sensor works with the current Libre 2 reader and LibreLink app.

Correspondence was issued to GP practices in June 2025 to remind them to switch patients [see link](#)
