

SPPG Ophthalmic Services

Post-Operative Cataract Report – Location on the CCG eReferral Destination List

Please follow the CCG pathway noted below to locate the post-operative cataract review and assessment report template which should be completed before submission to HSC Trust for patients eligible for the service. Please ensure that you comply with the [service specification](#) and provide **ALL** the required information (clinical and other) as listed in the [service specification](#). This includes:

- i. Name of post-op provider optometrist
- ii. Refractive data both eyes
- iii. Best corrected visual acuity both eye
- iv. Intra Ocular Pressure (any method and both eyes)
- v. OCT only if clinically indicated and available. This will not attract an additional fee/payment from SPPG.
- vi. Patient-Reported Outcome Measure (PROM) – Is the Patient: Not Pleased: Pleased: Very Pleased
- vii. Does patient require and want 2nd eye cataract surgery
- viii. Any other pertinent information

PLEASE NOTE: Incomplete reports will not be accepted as a valid return. Please ensure that when submitting the report that the final status noted against the record on the CCG worklist states **“submitted”**.
