Please note that the following items within the ITS contract register are considered exempt from disclosure under Section 31 of the Freedom of Information Act 2000 ('Law Enforcement'):

- Supplier name
- System name

I should furthermore explain that ITS has been commissioned to provide ICT shared services to the wider Health and Social Care (HSC). Essential elements of the service include the security of the data held and the protection of the HSC network boundary. Section 31 is also a qualified exemption which means that the public interest test (PIT) must be considered. This involves weighing the harm resulting from possible disclosure against the likely benefit to the wider public. A copy of PIT is attached for your reference.

In considering the PIT, I acknowledge that there may be a public interest for disclosure in line with BSO's requirement to be open and transparent in its use of public monies and provision of public services. However, while I make no suggestion that there is any malicious intent on your part; provision (and therefore publication) would be capable of making BSO, and the wider Health and Social Care, vulnerable to malicious attack. I therefore consider that the public interest in withholding this information outweighs the public interest in supplying it.

I hope that the information provided assists you. If you are dissatisfied in any way with the handling of your request, you have the right to request a review. You should do this as soon as possible or in any case within two months of the date of issue of this letter, as the BSO, along with all other public authorities are not obliged to accept internal review requests after this period has lapsed.

In the event that you require a review to be undertaken, you can do so by writing to

Information Governance Manager,

If, following an internal review, carried out by an independent decision making panel, you remain dissatisfied in any way with the handling of the request, you may make a

complaint under Section 50 of the Freedom of Information Act, to the Information Commissioner's Office and ask that they investigate whether the BSO has complied with the terms of the Freedom of Information Act.
