Uro-Tainer Twin Suby G	(9746609)	2 x 30ml	5.07
3.23% Citric Acid			

Catheters, Urinary, Urethral

1. Catheter sizes are designated by the Charrière (Ch) gauge system - even numbers only. (The equivalent metric sizes for Charrière gauges 6-30 are 2.0mm-10.0mm, rising in 0.66mm). Where size is not stated by the prescriber, size 14 or 16 should be supplied.
2. If a balloon size is not stated by the prescriber when ordering a Foley catheter, a 10ml balloon catheter should be supplied - a 5ml balloon in the case of a paediatric catheter.
3. Where the brand is not stated by the prescriber, the basic price of each listed catheter supplied must not exceed:

	Basic Price
Nélaton (Male)	0.44
Nélaton (Female)	0.40
Nélaton (Paediatric)	0.40
Foley (Male) short/medium term	2.27
Foley (Female) short/medium term	2.27
Foley (Paediatric) short/medium term	4.64
Foley (Male) long term	3.35
Foley (Female) long term	3.35
Foley (Paediatric) long term	3.35

Where the specification of the Foley Catheter is not specified by the prescriber and not endorsed as short/medium or long term the dispenser will be paid no more than the lowest basic price listed which is currently £2.27.

- 4.5-units of plastic catheters, for example, represents on average one month's supply for patients practising intermittent catheterisation.
5. The rate of use of single use Nélaton catheters is approximately between 6 and 45 times greater than reusable Nélaton catheters for patients practising intermittent catheterisation.

All products in this category must be dispensed with a supply of wipes and disposal bags.

(A)(i) Nélaton Catheter ('ordinary' cylindrical Catheter)
